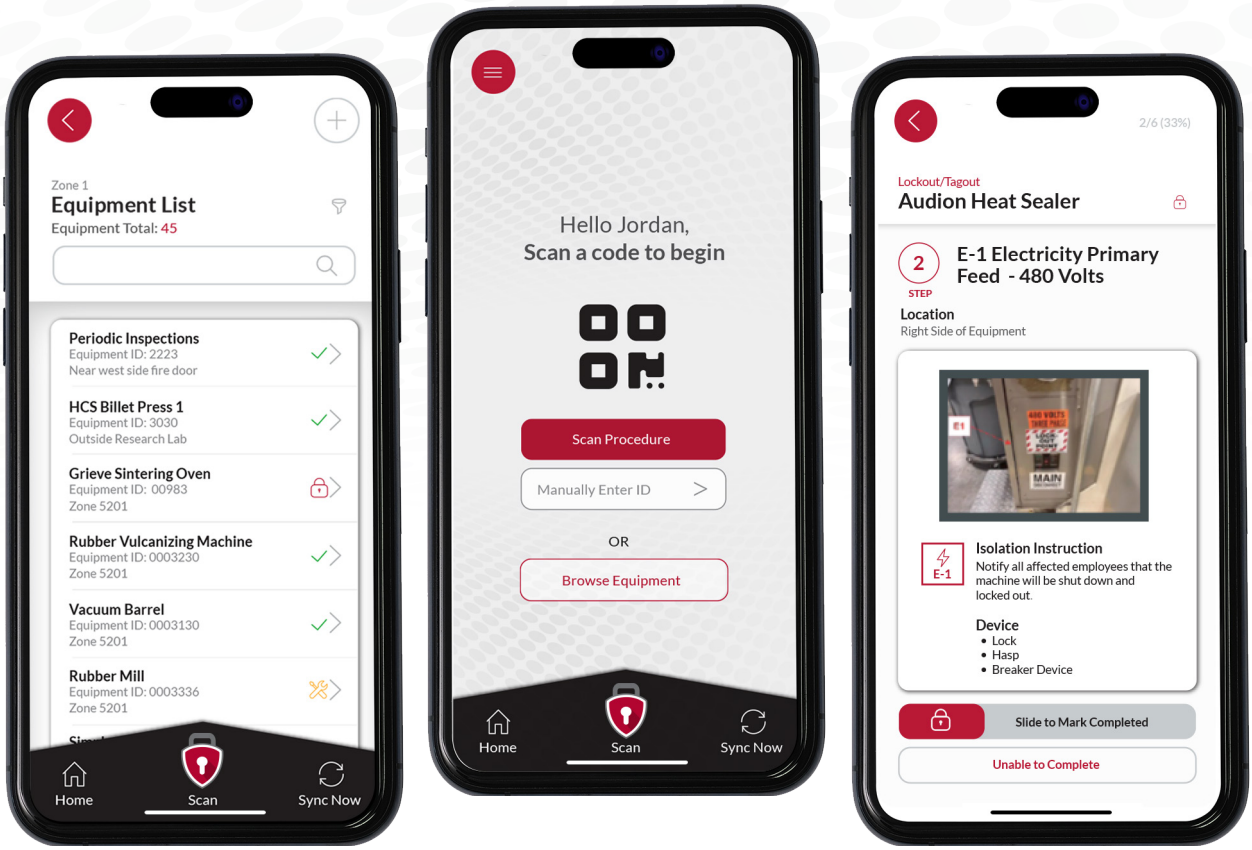
ROCKFORD SYSTEMS, LLC

Workplace Safety Solutions

Our easy to follow Lockout/Tagout software easily manages equipment and procedures to keep your workplace safe.



Procedure Builder

Mobile procedure builder includes photo annotation, lockout and verification steps, and return to service.

Equipment Status

Scan any equipment QR code to view current operating or locked out status, history, open issues, or due tasks.

Procedure Execution

Scan a QR code to execute the procedure step-by-step for process validation and lockout confirmation.

Analytics

Historical equipment data including audits, lockouts, and return to service with names, date and time. BI integration options.

Audit Scheduling

Audits are auto-triggered annually. Procedure and employee audits performed on the mobile app.

Issues Management

The integrated issues module auto-creates issues when LOTO procedures cannot be completed as written, and documents corrective actions and resolutions.
